

Durham County Local History Society

APPEAL

The Society was formed in 1964 to promote interest in the history of Durham County, particularly that of recent centuries when the County played a major part in the economic and industrial growth of Britain. The area covered by the Society's work is that of the historic County Palatine. However, if we are to continue the work of the last sixty years and update to conditions in the twenty-first century, we urgently need new members prepared to serve in administrative and technical roles - a priority is putting all our publications digitally on a new website:

History does not just exist,
it needs action. So
